

Zünd software licensing models

Depending on the software product, Zünd offers licenses as subscriptions or perpetual licenses. Continuous program updates keep users and their technology current at all times.

The licensing models for Zünd software give users the permanent benefit of the latest – and thus most powerful and secure – product versions. Zünd offers cutter control software (ZCC and Mind) with perpetual licenses. Other software products are offered in a subscription model.

Perpetual licenses:

The customer acquires the right to use the purchased software for an unlimited period of time. Continuous software maintenance ensures the customer always has the most current version. As a result, the customer benefits from the highest levels of safety and performance for the entire system.

Subscription licenses:

The customer acquires the right to use the full scope of the purchased software for a period of one year. Software updates are included. Using the latest version provides the customer with the benefit of maximum performance and safety for the entire system.

08/2021

Perpetual licenses

Activation of the software at my.zund.com

Upgrades can be purchased during the term.

The terms of any added options are adjusted to coincide with those of the primary license.

Contracts are extended annually by one year.

In case of non-payment of software maintenance, the right to updates expires.

No provisions exist for back payment of maintenance fees.

To continue participation in the maintenance program, the software will have to be re-purchased.

Subscription licenses

Activation of the software at my.zund.com

Upgrades can be purchased during the term.

The terms of any added options are adjusted to coincide with those of the primary license.

Unless terminated, contracts are renewed for another year.

In case of non-payment, the software can no longer be used.

To continue the subscription plan, the software will have to be re-purchased.
