

Marking Module Single/Double - MAM-SPS/SPD

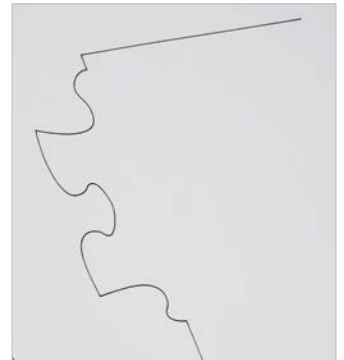

Marking/labeling tool for a variety of materials. Uses readily available pen inserts.

The MAM-SPS/SPD is used for plotting/drawing dielines, patterns, guidelines, line symbols and text. A variety of inserts and holders are available as Zünd consumables for drawing on different materials, including leather, paper, cardboard or film.

Drawing tools available from Zünd include ballpoint pens in a selection of colors, as well as silver and other ink pens in different line widths.

The pneumatically driven tool is available in two versions: The Marking Module Single -

MAM-SPS for one drawing/plotting tool and the Marking Module Double - MAM-SPD for two.

ZST-07-2015-m&k
